July 11, 2018 -- Montauk, NY – Join us once again for an exploration of ART as the 24th Annual Show on the Montauk Green returns on **August 17-19, 2018**. Presented by the Montauk Artists' Association, the Montauk Green will blossom with original and handmade fine art, created through the visions and talents of local, regional and national artisans. Know that your gracious support of this event and the artisans has made it one of Long Island's top fine art festivals while annually providing essential support for the not-for-profit Montauk Artists' Association.

The event opens Friday at noon. The artwork brought to Montauk by these visionary artisans transforms the Montauk Green into an outdoor gallery of art. Walk through the Green discovering incredible creations in such art mediums as painting, sculpture, jewelry, photography, glass, ceramics, mixed-media, woodworking and more. All the artists creating these pieces are present throughout the event. Enjoy the opportunity to talk with the artisans and learn how they developed their art forms. Learn how they created the specific pieces you purchase. Should you not see exactly what you desire, speak with the artists about commissioning a unique piece of original art made specifically for you!

The **24th Annual Show on the Green** opens Friday August 17 at noon and is open until 6 p.m. Both Saturday and Sunday the art festival is open 10:00 a.m. to 6:00 p.m. **Admission is free.** One of the most fascinating aspects of discovering art is what you discover of yourself through the process of seeing and connecting with art. You will find it is a beautiful experience!

The Annual Show on the Green is produced by the Montauk Artists' Association. Visit our website at: www.montaukartistsassociation.org.
